WELCOME TO THE 2025 COPPER CONGRESS: SHAPING THE FUTURE OF THE COPPER INDUSTRY

Join us for the 2025 Copper Congress, taking place from April 7-9, 2025, at the prestigious World Trade Center Dubai. This event promises to be a pivotal gathering for industry leaders, innovators, and decision-makers from around the globe, focusing on the latest advancements and trends in the copper industry

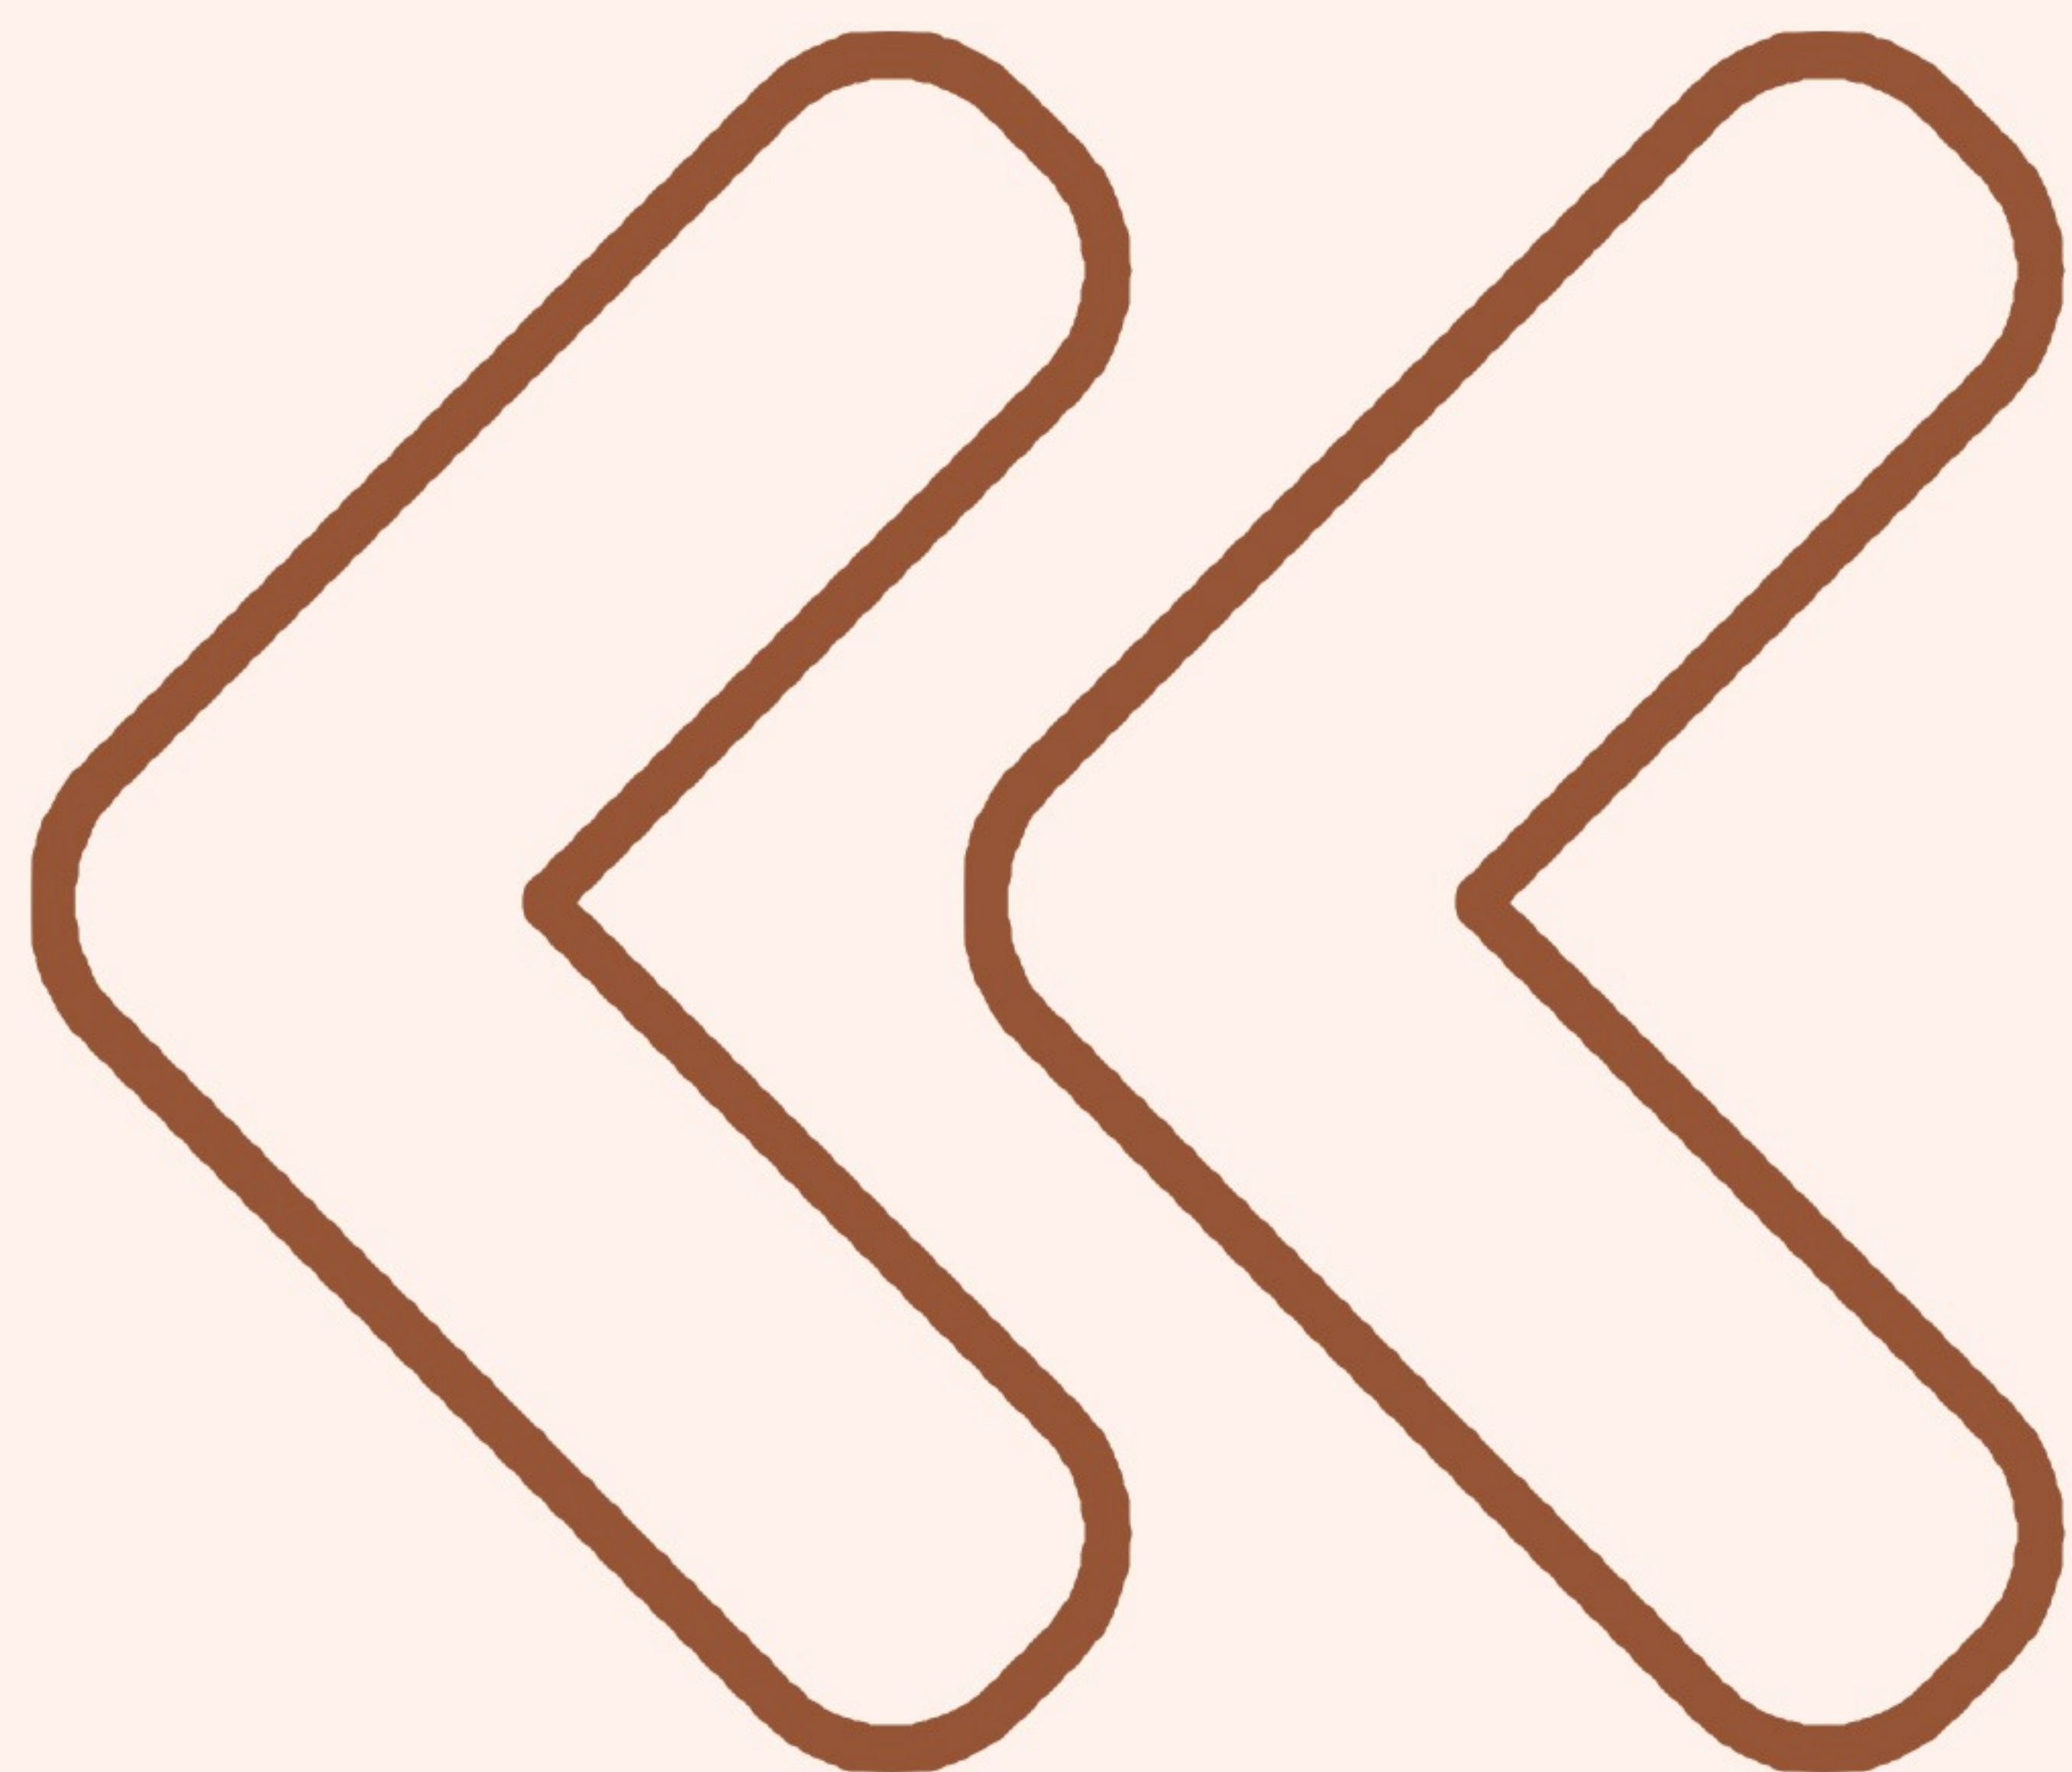

➤ OUR MISSION

The Copper Congress aims to bring together countries and industries to foster collaboration and knowledge exchange in the copper sector. Our goal is to create a sustainable future for the industry by promoting innovation, sustainability, and responsible practices in copper production and utilization.

**RIGHT HERE, RIGHT
NOW IS THE TIME**

KEY FEATURES OF THE CONGRESS

Expert Speakers: Engage with industry leaders and experts who will share insights on current trends, challenges, and innovations in the copper industry.

Networking Opportunities: Connect with a diverse range of participants, including government officials, corporate executives, researchers, and entrepreneurs, to explore potential collaborations and partnerships.

Exhibition Space: Showcase your products and services in our exhibition area, allowing you to reach a targeted audience and gain visibility in the industry.

TOPICS OF DISCUSSION:

The congress will cover a wide range of topics, including:

- Advances in copper mining and production technologies
- Innovations in copper applications across various industries
- Strategies for achieving sustainability in the copper supply chain
- The role of copper in renewable energy and green technologies

WHY ATTEND THE COPPER CONGRESS?

- **Gain Knowledge:** Stay updated on the latest research, technologies, and market trends that are shaping the future of the copper industry.
- **Expand Your Network:** Meet key stakeholders and decision-makers who are driving change and innovation in the sector.
- **Influence the Future:** Be part of discussions that will shape the direction of the copper industry and contribute to a sustainable future
